

# **Pneumatic Directional Control Solenoid** Valves – BVS Series

BVS Series Solenoid with Leads

**BVS Series Solenoid with DIN** 43650 Form C

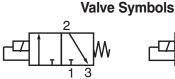

Diagram A 3/2 NC

1 3 Diagram B 3/2 NO

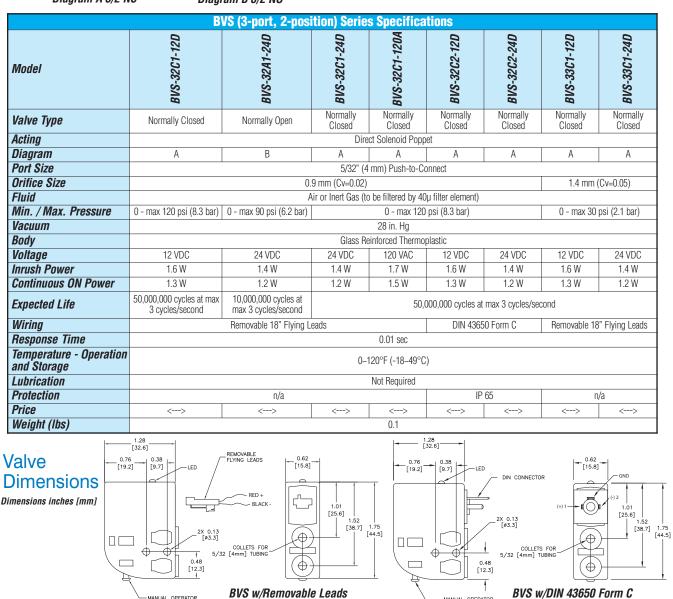

NITRA™ pneumatic BVS series modular solenoid valves are body ported 3-port (3-way) poppet valves available in 2-position, normally open or normally closed configurations. Most models have removable flying leads that can be used with BVM series manifolds. Two models are available with an 8 mm Micro DIN connector. Units are only DIN rail mountable when used with BVM series manifolds.

#### Features

- Body ported, 3-port (3-way) poppet valves
- 5/32" (4 mm) push-to-connect ports
- Flow coefficients (Cv) from 0.02 to 0.05
- 2-position, single solenoid spring return
- Normally open or normally closed
- 12 VDC, 24 VDC or 120 VAC solenoid coils with LED status indication & surge suppression diode

MANUAL OPERATOR

- Flying leads or 8 mm DIN connection
- Pushbutton manual operator
- 2-year warranty

# Manifolds for Modular Solenoid Valves — BVM Series

BVM - 4-Station

BVM - 8-Station

NITRA<sup>™</sup> pneumatic BVM series modular manifolds simplify the mounting and wiring of BVS series solenoid valves. Made of sturdy glass reinforced thermoplastic with DIN rail mounting clips included, they are available in 4and 8-station models. Push-to-connect inlet and out connections and a 9pin D-sub connector allow quick and easy tubing and wiring. Company Information

#### **Features**

- No tools required to install/remove valves
- 4- or 8-station manifolds available
- 6 mm or 1/4" tube inlets
- 35 mm DIN rail mounting clips included
- 9-pin D-sub connector for easy wiring
- 2-year warranty
